

## PRODUCT SPECIFICATION

Product:	<b>Caramel color N/35 - E150b</b>
Application:	<b>Colouring agent for food and beverages</b>
Code	<b>0801053</b>
Shelf life	12 months
Storage conditions	Room temperature in sealed packings

### ANALYTICAL DATA:

<i>Parameters</i>	<i>Specification</i>
E.B.C.	15,000 - 20,000
Color absorbance at 610 nm sol.0.1%	0,045 - 0,065
Color absorbance at 530 nm sol.0.1%	0,150 - 0,200
Density at 15.5°C	35,70 - 36,20
Specific gravity at 20°C, g/cm <sup>3</sup>	1,320 - 1,340
pH	3,0 - 4,0
Viscosity at 30°C	< 1000
SO <sub>2</sub> ,mg/kg	< 200

Product not contains genetically modified organisms. It is not toxic or dangerous to human health. In accordance with Bulgarian and European standards for colors. Suitable for human consumption.

*Product specification reflects the composition and properties of our product available under our current information. As newer version, it automatically replaces all previous ones. Product and its components are in compliance with the Bulgarian and European legislation in the food industry. Responsibility of the user is to ensure the incorporation of our products to produce food / beverages to be complied with applicable local laws and regulations restrictions. The usage of our product is for limited applications*
